

6516208762.txt

I hope that I will be allowed to continue to receive the high quality city specific weather and traffic reporting that XM Radio is supplying me. I spend a great deal of time in my car and it is a great advantage to be able to turn on the my radio and be able to hear a traffic report when I need it not just when it fills the schedule of the broadcast stations.

Please reject the NAB petition 04-160.
